

HEART ALIGNMENT PRESENTS

Need more joy?

Presented by

TERRI BEDFORD, DPT

*Vibrational UPgrade Energy Medicine Master Practitioner,
Usui Reiki Master, Doctor of Physical Therapy*

Please join me in a special, cultivated, high vibrational space for healing for the mind, body, spirit.

During this workshop, let's:

- Get out of our minds and into alignment with our hearts
- Step into your joy
- Be lead by your heart
- Choose to live from there
- Become the co-creator that you are

Plus, receive a Vibrational UPgrade to your system with live subconscious/unconscious clearings and activations to help you move beyond the dull and old and into the manifestation of the new you.

It's time to be living in the freedom of a heart centered life.

Will you say YES?
